# SAY HELLO TO YOUR NEW FAVOURITE PAIR

Thanks for buying Reemi! We're super stoked you are supporting our small non-profit.

---

## WEAR

Try your Reemi out for the first time during a light part of your flow, or when you know you're going to be home for a while and can keep an eye on things. Everyone's flow is different - your Reemi may last all day, or maybe a few hours. You can also wear them as a combo with a cup for that extra peace of mind. Go on, let them take care of you.

---

## FABRIC

We take so much care when deciding what goes into our period underwear. Like a Michelin star restaurant, we want the finest produce and in our case - fabrics! We're giving you the best product for your bod and the planet!

### COTTONX™

A natural, self-disinfecting fibre made from biodegradable materials. It's soft, even on sensitive skin, and can help reduce the risk of infections!

### TENCEL™ MODAL

The outer of your new undies is made from hyper-sustainable Tencel™ Modal, one of the lowest-impact fibres available.

### RECYCLED PUL

We can't end this without a slight flex - we are the first in the world to use recycled polyester in our leak-proof layer.

---

## GOOD

When you buy Reemi you're supporting period equity around the world. As a registered non-profit, all proceeds from sales of Reemi underwear go toward sustainable menstrual products and education for people in Bangladesh. Thanks to you more than 500 people were supported in 2021!

---

## WASH

Your Reemi are fully machine washable - yay! Wash before you wear them for the first time, and always on a cold, gentle cycle with similar colours. Do not soak, bleach or tumble dry. Remove from machine immediately and hang to dry.

---

## REST

Sit down, have a cup of tea and give yourself a pat on the back. You're doing great!

---
